It was May 2013 and while I was pursuing a job as a Team Leader in a Call Centre, I made up my mind to change my life and give a shot at becoming a Cabin Crew, an ambition which I harbored since childhood. I don't know what pushed me to take this decision, but this is a decision which might be the most uplifting. Before joining AAH, I never knew that I could be so close to getting a dream job as a Flight Attendant in the 2nd year itself and that too with GoAir. The catalysts for this change were three really awesome people Suraj Sir, Dipti Ma'am and Niranjana Sir whose guidance, teaching, love and mentorship helped me achieve this life changing feat. When it came to placements, Joy Sir helped me just as a parent would during his child's first exam; from preparing me for all the possible questions, to conducting mocks and following up right until the moments just before and after the interview, I always felt prepared, cared and confident all thanks to him. While during the course I made some great friends whose company I cherish even now. Though there was some competition at the centre, the best thing was that it was healthy. We helped each other whenever anyone of us was lagging behind in any aspect and helped each other learn and grow into better professionals. Becoming a Flight Attendant is no joke and the acceptance rates are not great but the guidance, training and conditioning at AAH by the really wonderful people made it seem like a piece of cake. All throughout my life I will remain indebted to AAH for changing my life and I will remember it as one of the most and best life changing events ever!

I have joined Aptech Aviation, Thane in August 2013 for doing the course DIPLOMA IN PROFESSIONAL INFLIGHT & GROUND STAFF SERVICES. I was always interested in Aviation and the job of a cabin crew always excited me right from a very young age. I like the way the trainers at Thane taught us about aviation while I was studying the course. The sessions were pretty interactive and the trainers helped us in clearing all doubts that we had regarding various concepts. This helped me in building a strong foundation. The placement service provided by Joy sir was really great. He had organized multiple interviews for us at GO AIR, GVK and Hotel ITC MARATHA. I was lucky to be selected by GO AIR as a cabin crew. Joy Sir constantly kept on motivating me during all the interviews and even till date I consult him when I have any doubts.

Overall, my experience with Aptech has been very pleasant. I have recently completed my training period with GO AIR and have started my flying career.

I had completed my HSC in April 2014. I was looking out for a career option which can make me independent at the earliest and that's when I came across Aptech Aviation and Hospitality from Shiksha.com. I made up my mind to join AAH and when I came at the center, I was given complete guidance about the course. After joining AAH, I was trained by some of the best mentors I ever had in my life, Suraj Sir, Sheetal Ma'am, Ramdas Sir and Nisha mam. Their help, guidance and support polished me into a person fit for the service sector and made me what and how I am today and coming on to placements, I was very lucky to receive tremendous support from both my center as well as from Joy Sir, who is from the placement team from the Head office. I was always made to feel comfortable and confident to face interviews. During the course, I came through most friendly colleagues. We all worked as a team in helping each other to work on our pros and cons. We all supported one another emotionally and made a bonding which I can never forget in my life. This environment also helped me to open up completely. Study was fun and AAH became the most crucial part in the success of my life. In all AAH changed my life and made me a self-dependent, confident and stable person. I will always be thankful to the faculty, center and placements of AAH for making me what I am today.
